Re: *In re GEA Process Engineering, Inc., Misc. No. ____*, On Petition for
Writ of Mandamus to the United States Patent and Trademark Office,
Patent Trial and Appeal Board, In Case Nos. IPR2014-00041,
IPR2014-00043, IPR2014-0051, IPR2014-00054, IPR2014-0055

Dear Mr. O'Toole:

I spoke with Sarah Jeffries this morning regarding this filing and particularly the
appendices. For the Court's convenience, we reiterate footnote 1 from the Petition for
Writ of Mandamus:

The public and confidential records before the PTAB do not have the
same pagination but both are cited properly throughout this brief. For
example, a brief filed publicly with the PTAB will get a second
certificate of service when a confidential version of that same brief is
filed later with the PTAB. Therefore, the public and confidential
appendices submitted with this filing differ in pagination as well as size.
For convenience, GPNA provides parallel citations to both with the
confidential record as "A__" and to the public record as "AP__."

If there are any questions or concerns please contact me at the number above or by
email.

Respectfully,

A handwritten signature in blue ink that reads "Wm. P. Atkins".
